

Starting Our Journey - Part 1

This workshop is designed for Early Years Professionals who work with young children and their families. This session will deepen your understanding of the truth and history that has happened in the past 150 years. This is a journey for Participants, so first we need to have a conversation, then an opportunity to ask questions so that we can have tangible ways and understanding to enhance the work we do while supporting Indigenous Families.

INDIGENOUS EDUCATIONAL WORKSHOP
