Families

# Nourish Families Initiative

## BECOME A MEAL PARTNER!

Every meal ordered by a community member provides a second meal to a family in need! The more meal partners we have, the more meals can be ordered. The more meals ordered, the more families in need get fed.

All of our families have at least one child under the age of 12 and face considerable financial and/or social barriers. Meeting basic needs opens the door to our family resource programs to help these families thrive!

Nourish Families was created with connection and compassion in mind. We highlight the generosity of local business and bring people together.
